

AERUS

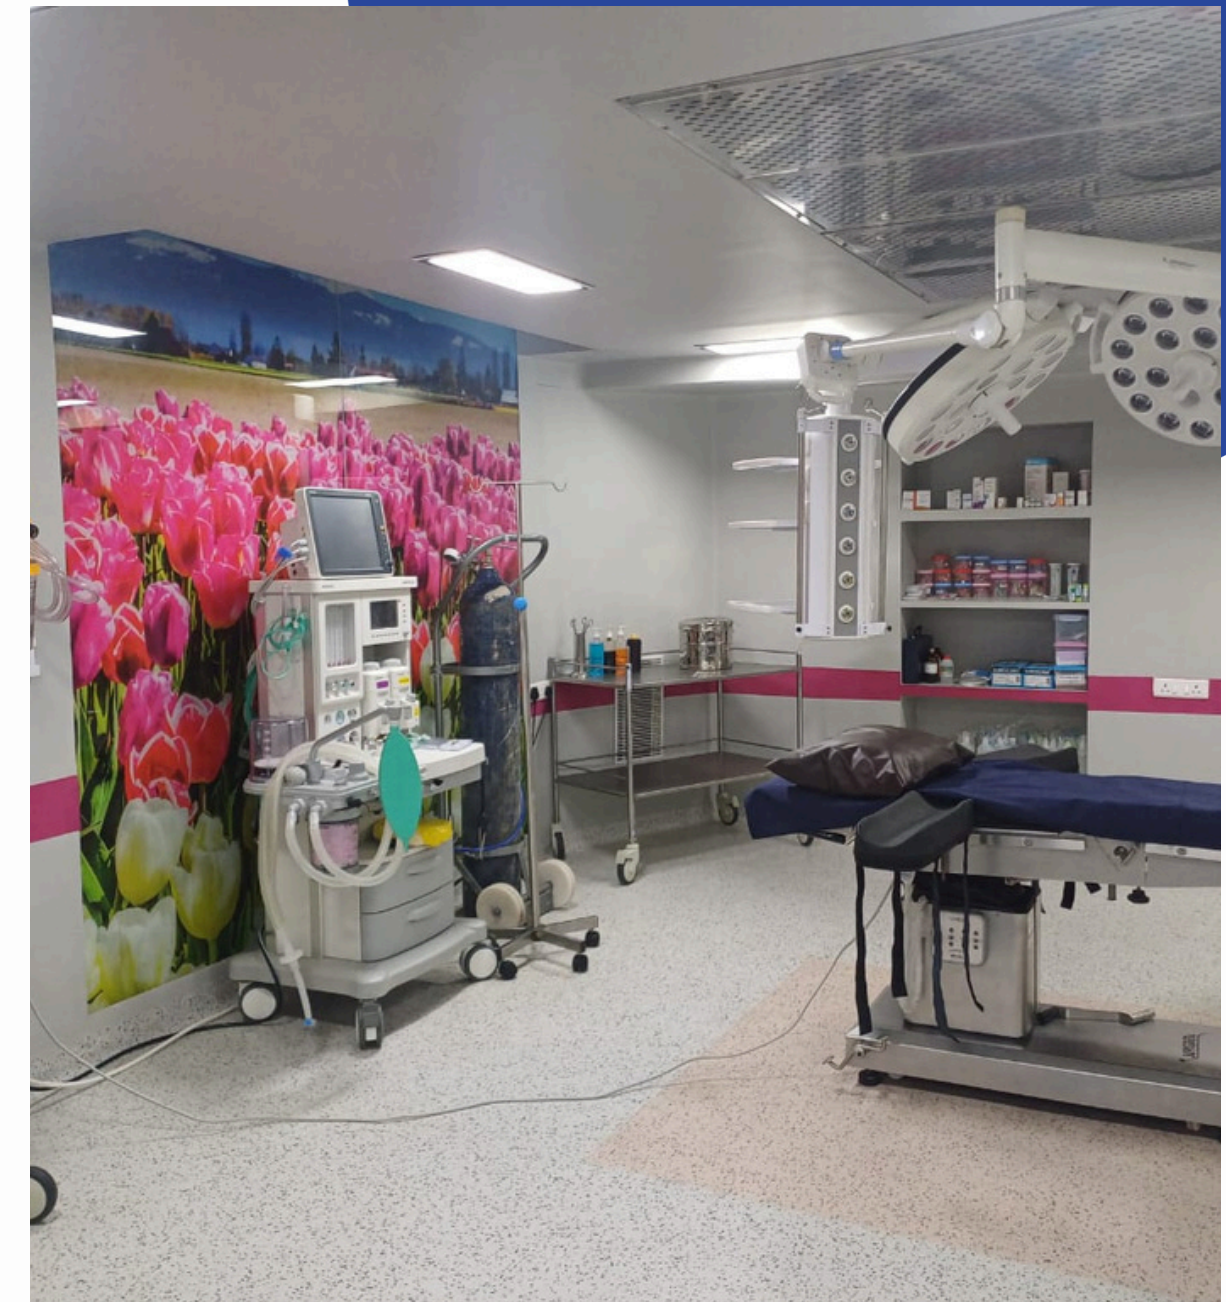

INTRODUCTION

We Aerius Industries (P) Ltd. are an ISO 9001-2015, CE, WHO-GMP and EN - 12469-2000 Certified company situated at Faridabad, Haryana. We are one of the fast growing leading manufacturer of Biosafety Cabinets, Laminar Airflow, PCR Hood, Air Showers, Static Passbox, Fan Filter Units, Dispensing Booth and other Cleanroom equipment along with all type Air Filters like - Hepa Filters, Mini Pleate Hepa, Pre Filters, Microvee/Fine Filters and Wire mesh filters etc.

We also deal in Cleanroom /Operation Theatre and Equipments Validation & Certification as per NABH and ISO guidelines.

Over time, we made an incredible mark in the Healthcare & Pharma Industry. One can choose from a diverse and comprehensive product range of our surgical , medical, hospital and Cleanroom Equipments. Certified by relevant up to date quality standards, our product carries a high degree of precision, attributing a certain degree of reliability. All our products come with a comprehensive warranty which ensures our customers about our quality and service

Our theory of making every product as per customer specification makes them valuable and easy to use also we ensure that it cost will be in competitive range. Every quality standards no matter how small or how large adds up to ensure that Aerius delivers you the most precise products

ABOUT US

We would like to introduce ourselves as one of the fast growing company in the field of Manufacturing and Service Provider of HEPA Filters, Biosafety Cabinet, Laminar Airflow, PCR Hood, OT Plenum, Surgical Equipment's, Cleanroom /OT Validation & Certification (as per ISO and NABH guidelines), HVAC Consultant and Contractors with clear focus in the field of various industries like Pharmaceutical, Hospital, Biopharma, Environmental labs, Datacenters, Research and Education Institutes, Paint Industries, Food Industries, Automobile industries etc.

We have expert knowledge of Contamination Control so always want to satisfy our clients by giving them great products and satisfy them excellent quality services. Certified by relevant quality standards, our product carries a high degree of precision, attributing a certain degree of reliability. This enterprise also provides Validation and Calibration services along with Clean Room design, development, construction and installation

VALUES

Vision

Aerius Industries Private Limited, Established in Year 2015, has a vision of delivering high quality products to the customers. We are involved in adopting best practices and most novel methods to manufacture a wide range of product involved in Cleanroom, Hospital and Pharma Industries.

We are trying to become a renowned global manufacturing company in the field of contamination control with innovative employees and newest technologies.

Mission

Our mission is to ensure that every product we manufacture is carved to perfection and customised to meet the ever growing needs of the industry.

Towards social contribution we continue to try our best to bring smiles to each and every face we come across, by focusing to our motto devotion towards achieving excellence which is also our tagline “Purity at Its Finest”.

We intend to contribute in the development of society by becoming a trustworthy partner for everybody, providing services & new technologies to fulfill the requirements of society .

We would request for your continued support to Aerius Industries

WALL PANEL FOR OPERATION THEATRE

AERUS

To keep the operating theatres sterile, MEC use stainless Steel double layer panel with XPS core having Anti Bacterial, Anti Fungle & Anti Algal features for long & safe use. The MOT's are design to have smooth & seamless surfaces, round corner of wall and assesses of sharp edge to prevent any chances of accumulation of stagnant Air or built up of contamination. Jointless & cavity free, finish is provided before sprayed with water base liquid plastic aseptic and self sterilizing colours of different shades upto 300 micron.

LAMINAR AIR FLOW WITH HEPA FILTER

AERUS

Modular / laminar flow operating theatres are engineered to meet International standards of health care needs. Bespoke purified HVAC system design with Laminar Air Flow ensures sterility, easy maintenance and effective utilization. Plan air ceiling constructed out of Aluminium extruded frame with double layer S.S Panels and Air diffuser made out of nylon filament cloth to provide filtered Air backed by high efficient Hepa Filters of 0.03 micron.

X - RAY VIEWING SCREEN

AERUS

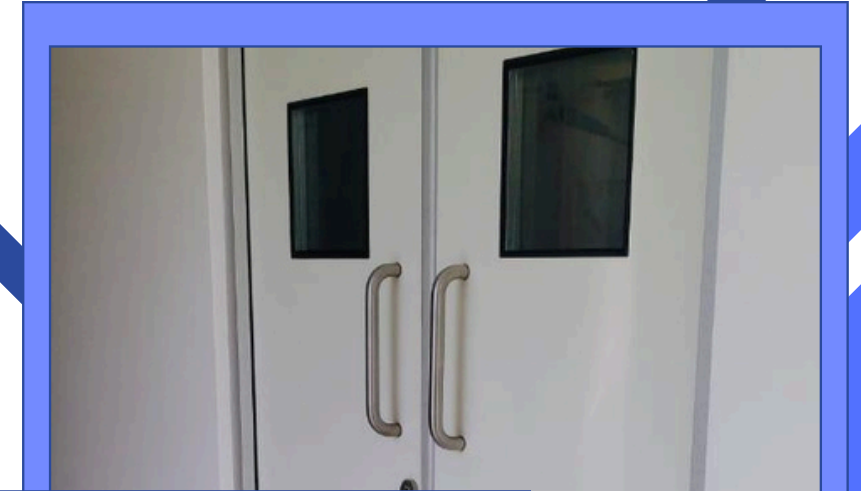

X - ray viewer box having embedded design is made out of Aluminium extruded having non flicker, providing high luiminess with dimmer switch for adjustment of lightness. It has 2 -array to 9 - array as per indiviual requirement.

HERMETICALLY SEALED DOOR

AERUS

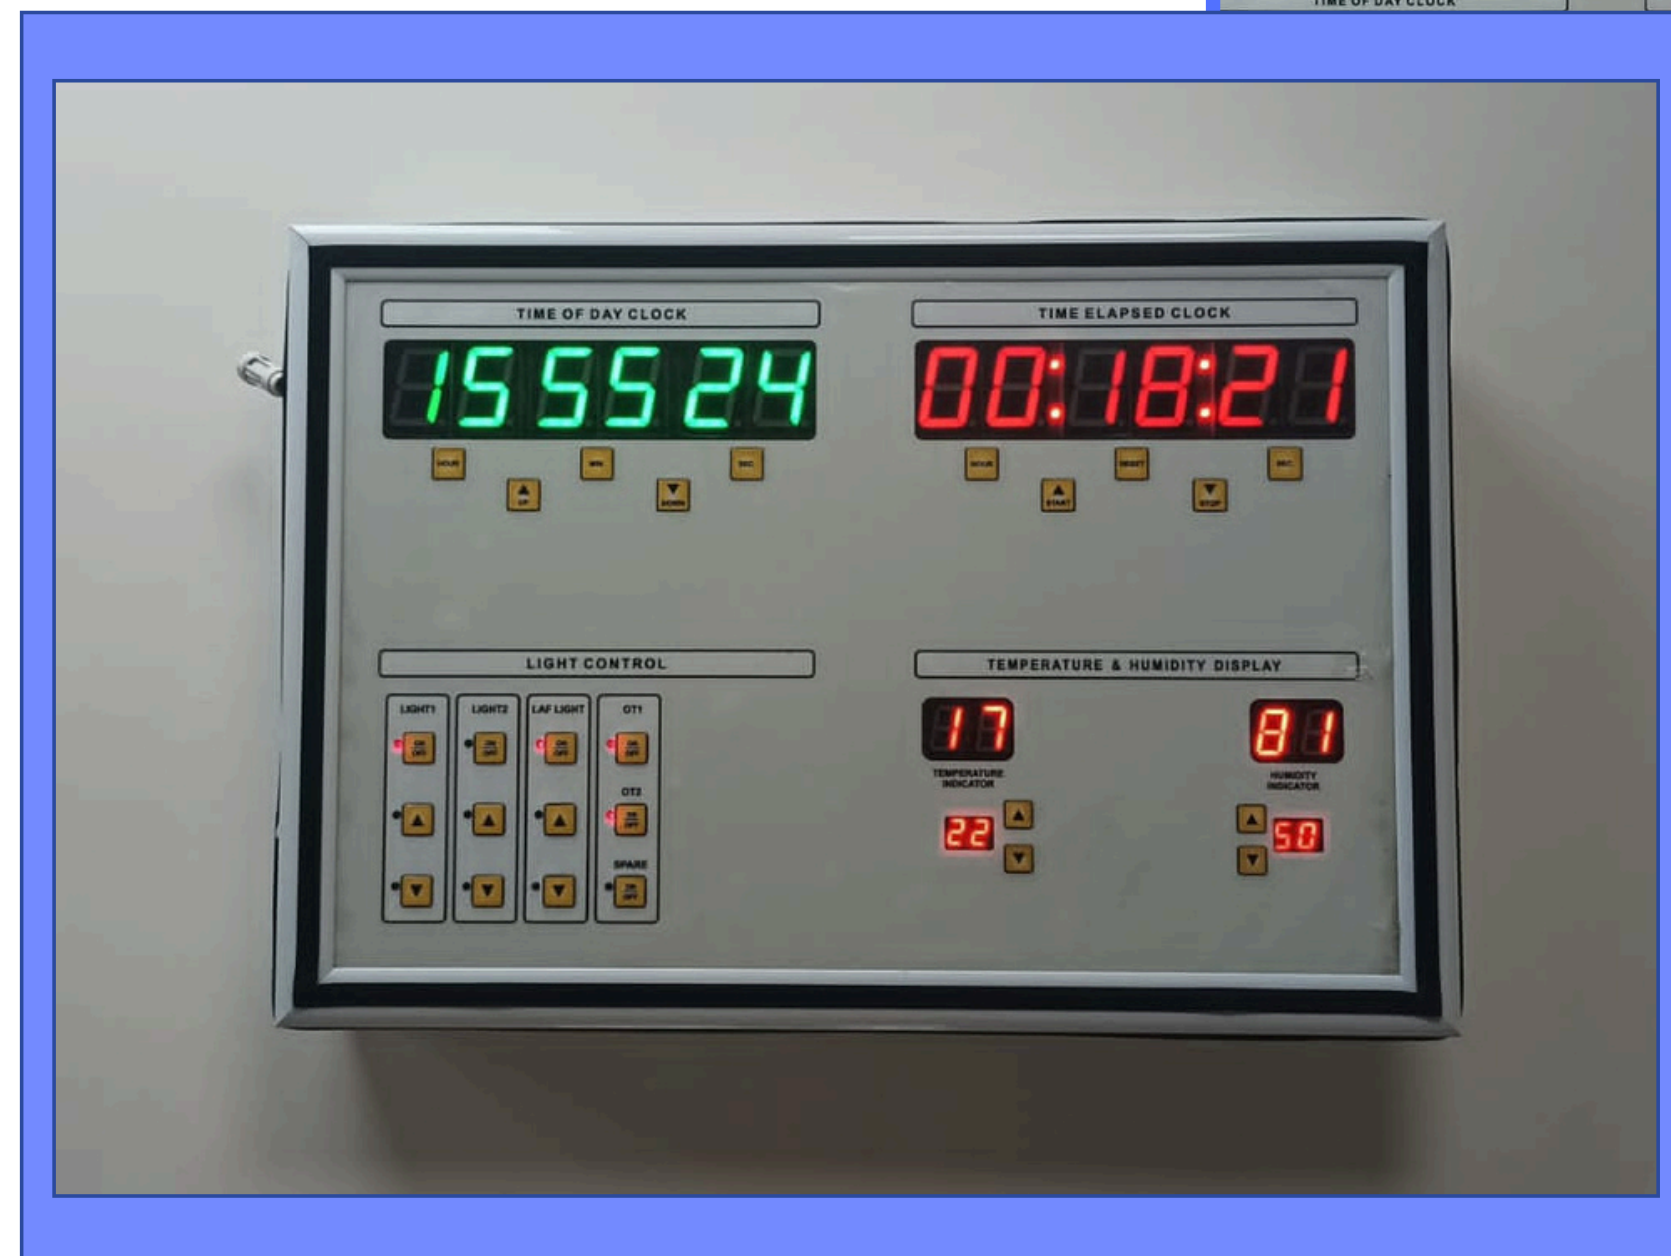

To keep operating theatre sterile, hermetically sealed automatic/ manual, sliding / swing doors are provided made out of high density particle board cores, high pressure laminated faced and effortless sliding arrangement with nylon wheels & aluminium extruded track. Hand sensor, foot switches and infra-red photo sensor, radiation shield can also be provided as per individual requirement.

OT CONTROL PANEL

AERUS

It is equipped with Day Time & Laps Time Clock Hand Free Telephone, Medical Gas Alarm system, Peripheral light & Dimmer switch etc. as per individual requirement. It is having microprocessor feature.

SCRUB STATION

AERUS

2-3 Bay as per individual requirement scrub sink made out of 304 grade SS Brushed finished steel with Photo Electric Sensor, Mixer valve, Solonite valve & Foot/ Knee operated are provided.

PRD STABILIZER

AERUS

It provides highly efficient cascade Pressure Stabilization.

It consists of multi blades of 304 stainless steel to control the Air Pressure inside the Operation Theater.

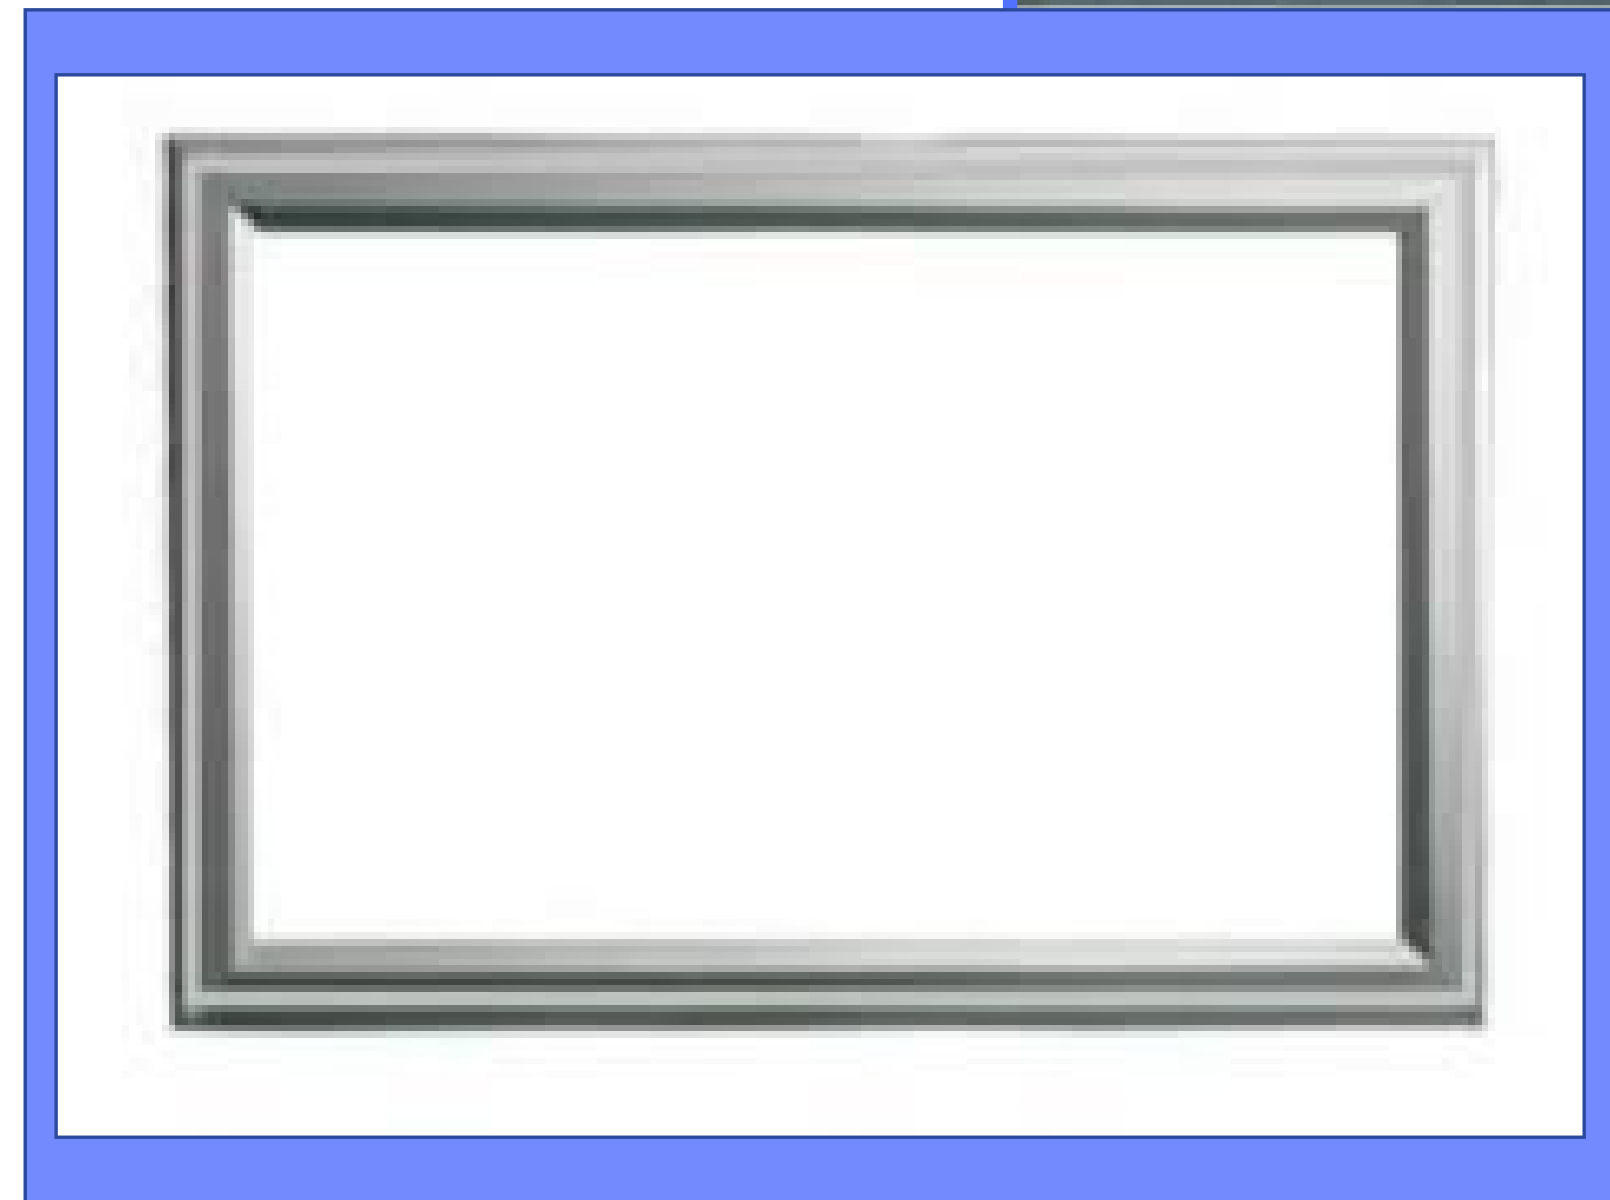

LIST BOARD

AERUS

It provide writing board embedded into wall panels to provide clean & smooth wall made out of puff panel and CRCA powder coated box.

I consists magnetic properties so that one can easily place duster etc on it.

MULTI MOVEMENT PENDENT

AERUS

Multi movement Anaesthesia and surgeon pendent are made out of aluminium extruded / sheets, powder coated in different colours, to provide maximum convenient to Doctor & paramedical staff. It has provision for gas terminal unit, electric sockets, load capacity upto 150 kg., monitor shelves, IV tree, rod for infusion and siring pump, instrument carrier of arm length 800 mm to 1200 mm with maximum rotation 360 Degree.

OT FLOORING

AERUS

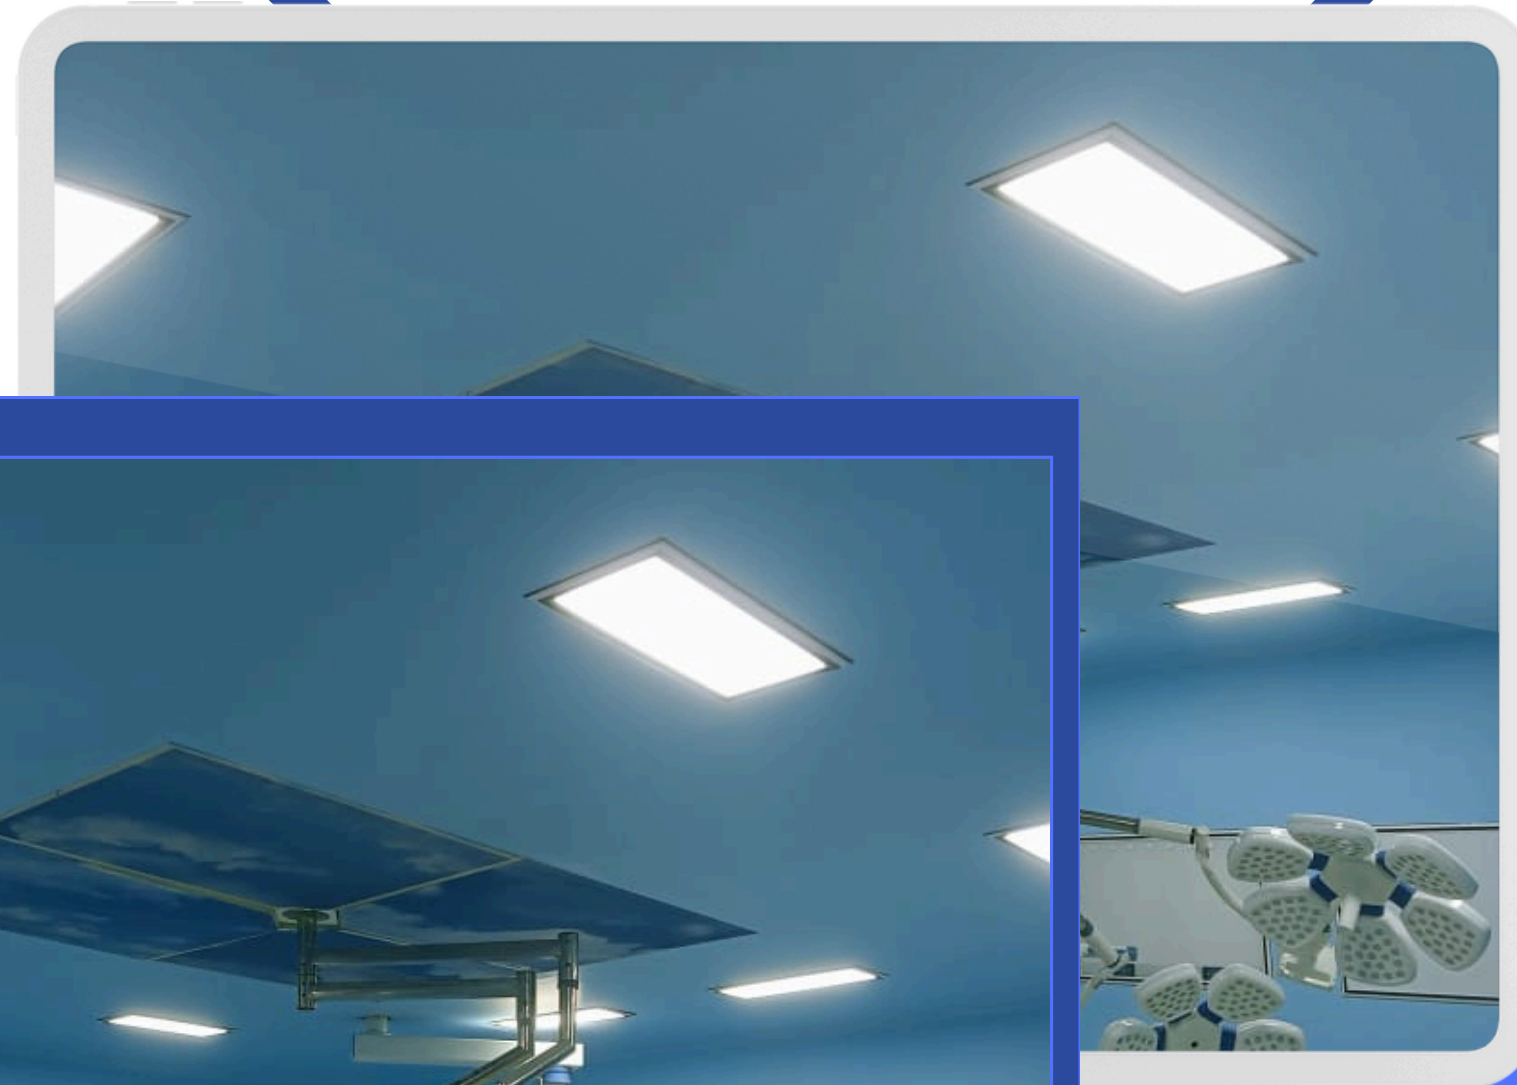

To provide maximum cleanliness in operation theatre, seamless, antistatic and conductive & flooring having resistance to mechanical stress and dynamic load with ESD/EMY properties with perfectly covered coving and scotting is provided. It comes in Tiles / Roles of different colours as per individual requirement.

OT PERIPHERAL LIGHT

AERUS

Offer wide range of Shadow less cool Light depending on individual requirement. Our range 500 lux to 1500 lux depending upon size of light. It also comes with in built in dimming capacity of choke for easy control of intensity of light.

AIR HANDLING UNIT

AERUS

An air handling unit, commonly called an AHU, is the composition of elements mounted in large, accessible box-shaped units called modules, which house the appropriate ventilation requirements for purifying, air-conditioning or renewing the indoor air in a building or premises.

They are usually installed on the roof of buildings and, through ducts, the air is circulated to reach each of the rooms in the building in question.

We have range of air handling units depending upon the OT requirements having features of HVAC system to provide high sustainability.

PASS BOX

AERUS

Static Pass Boxes are cost-effective solution as it allow materials to be transferred into or out of the controlled environment without personnel movement, thus, decreasing the risk for cross-contamination.

OT pass box is amended in wall panel to keep operating theatre sterile made out of 304 SS with toughned glass and push switch for maximum comfort to the para medical staff.

INSTRUMENT STORAGE

AERUS

Instrument storage cabinet provides maximum space & comfort for the storage of instrument & medicine inside the OT as this is amended in wall panels, having 3 shelves in each cabinet with individual transparent toughened glass/acrylic.

VALIDATION, TESTING & CERTIFICATE

We specialise in validation facilities and offer a complete range of performance tests including :

- Air velocity test & air change per hour
- HEPA filter integrity testing
- Room different pressure measurement
- Non-viable airborne particulate monitoring
- Temperature & relative humidity measurement

All tests are conducted as per NABH guidelines of Modular Operation Theaters with duly calibrated instruments.
